

# Multimodal Logistics & Construction Organization

# Transport Anything, Anywhere, Anytime !

## About NLC

The National Logistics Corporation (NLC) is the premier multimodal logistics organization of Pakistan offering end-to-end solutions to its valued clients. NLC provides unparalleled services including multimodal logistics, cross-border transportation under TIR, logistics parks & cold chain solutions, border terminals management and human resource development. NLC is a self-sustained organization, which has impressively transformed itself with regard to capacity building, efficiencies, digitization and automation.

## Logistics Services

NLC Logistics Services employs multiple modes of transportation to provide end-to-end logistics solutions to its valued clients. The elaborate infrastructure, extensive footprint and fleet of modern vehicles complemented by trained and experienced workforce accords NLC the exclusive ability to transport diverse range of cargo to over 100 destinations across Pakistan.

NLC Logistics Services comprise road, rail, sea & air freights, dry ports, logistics parks and container terminals. NLC is the only organization in the country having state-of-the-art fleet that is fully compliant to the standards of Oil & Gas Regulatory Authority (OGRA), National Highway Authority (NHA), Crude Oil Sale Agreement (COSA) and Health, Safety & Environment (HSE) in dry and liquid cargo transportation.

### Leading the Logistics Sector

**5000+**

Vehicles operating Across  
Pakistan & Beyond

**40+**

Offices  
in Pakistan

### Annual Lifting Capacity

Liquid Cargo

**2.3** Million  
Kilo Litres

Dry Cargo

**9** Million  
Metric Tons

## NLC Marine & Air Services

NLC Marine and Air Services (MAS) is one of the leading provider of comprehensive logistics solutions, offering an extensive range of services to transport cargo safely and swiftly to/from any part of the world.

NLC MAS offers a wide spectrum of services, including:

- International Freight Forwarding
- Ship Chartering
- Stevedoring
- Project Cargo Handling
- Warehousing & Distribution
- Consolidation Services
- LCL Export/Import Shipments
- Bonded Container Movement
- Cross-Border Trucking
- Air Freight/Chartering

## Logistics Parks

NLC is constructing modern logistics parks at Karachi, Lahore, and Rawalpindi. These strategically located logistics parks will provide cutting edge services, including advanced warehousing, comprehensive transportation infrastructure, and latest technological solutions, aimed at optimizing the entire supply chain process. By connecting business hubs with national highways, ports and airports, the logistics parks will serve as major catalyst in ensuring ease of doing business.

### 3 Logistics Parks

- 📍 Karachi Northern Bypass
- 📍 Nathe Khalsa, Lahore
- 📍 Harraka, Rawalpindi

### 5 Dry Ports

- 📍 Karachi
- 📍 Hyderabad
- 📍 Lahore
- 📍 Quetta
- 📍 Sost

## Dry Ports

The dry ports being managed by NLC facilitate traders and businessmen to have greater accessibility and penetration into hinterland markets. Latest infrastructure has been made available to ensure speedy handling of inbound and outbound cargo. Traders engaged in international freight shipping and regional export/import business prefer handling of their cargo at NLC dry ports due to clearance services closer to business hubs. NLC offers dry port facilities at Sost (near Khunjerab), Thokar Niaz Baig Lahore, Multimodal Transit Hub at Jia Bagga Lahore, Quetta, Hyderabad and Karachi.

## Off-Dock Terminal

In order to reduce delays in cargo movement and enhance overall operational efficiency, NLC has constructed off-dock terminal in Sultanabad near Karachi Port. The terminal offers essential facilities for container management and storage, enabling the ports to manage large cargo volumes without the need for physical expansion. Through its specialized services including container stuffing, consolidation and temporary storage, the terminal facilitates seamless logistics management by efficiently addressing the varied needs of traders, shippers, and carriers.

## NLC Express Freight Train

NLC Express Freight Train (NEFT) has enabled NLC to present itself as multimodal solutions provider thus enhancing its supply chain capacity. NLC also offers rail freight services to its clients in collaboration with Pakistan Railways, independently or as part of end-to-end logistics solutions.

Torkham Border Terminal

## Border Terminals

NLC has set up border terminals to ensure effective border management for regional trade and has provided all requisite infrastructure for government agencies to discharge their respective duties. NLC is operating border terminals at Torkham, Chaman, Ghulam Khan Kaley, Kharlachi, Taftan, Gabd and Wahga. To further streamline the trade activities at borders trade management at Chaman and Torkham have been upgraded under Integrated Transit Trade Management System (ITTMS).

### 7 Border Terminals

- 📍 Torkham
- 📍 Kharlachi
- 📍 Ghulam Khan Kaley
- 📍 Chaman
- 📍 Taftan
- 📍 Gabd
- 📍 Wahga

## Land Route Connectivity for Export/Import & Transit Cargo

### TIR Services

NLC is at the forefront of building regional connectivity and transforming trade. NLC is extending valuable contributions towards boosting economic activities by ensuring cost-effective and time-efficient movement of goods from the point of origin to the destination. Transports Internationaux Routiers (TIR) system is the key to unlocking new markets and connecting businesses across the region. With the help of TIR operations, NLC now offers an opportunity to business entities to transport their goods by road in 10-20 days from Pakistan to China, Russia, Central Asian Republics, Turkiye and Azerbaijan.

**TIR**  
Operations in **10**  
Countries

**180+**  
Registered TIR Vehicles

**Reefer**  
Service for Perishable Goods

Turkiye

Azerbaijan

## Our Destinations

### Reefer Service

NLC offers cross-border Reefer Service to regional countries. The service provides the exporters with opportunity to transport perishable goods in refrigerated containers. The transportation of such cargo under TIR system slashes the transit time and cost without compromising the quality of perishable items. Services for fresh produce, seafood, meat & frozen items, vegetables and fruits including banana, kinnow and mango are available for Central Asian Republics, China, Turkiye, Russia & Azerbaijan.

## NLC Engineers

NLC Engineers is the one of the most credible name in the construction sector of Pakistan, playing a key role in national development endeavours. NLC Engineers has a widespread national presence and dedicated project directorates for each administrative region to ensure effective monitoring and timely completion of mega projects across the country. NLC Engineers has proven ability to construct intricate engineering projects, whether within bustling urban centres or in remote regions in challenging conditions.
