

Logistics Services

End-to-End Logistics Solutions Provider

About us

Logistics Services carry out largest cargo operation in the country by employing multiple modes of transportation to provide end-to-end solutions to its valued clients. The elaborate infrastructure, extensive footprint and fleet of modern vehicles complemented by trained and experienced workforce affords NLC the exclusive ability to transport variety of cargo to over 100 destinations across Pakistan. Logistics Services comprise of Road Freight, NLC Express Freight Train (NEFT), Marine & Air Services, Dry Ports and Warehousing. Logistics Services is the only organization in the country that has a modern and diversified fleet fully compliant to the standards of OGRA, NHA, Crude Oil Sale Agreement (COSA) and Health, Safety & Environment (HSE) in dry and liquid cargo transportation.

Liquid Cargo

NLC maintains the largest OGRA compliant fleet to ensure public safety and environmental protection while transporting petroleum products for long distances. NLC lifts more than 55% of Pakistan's total crude oil production from far flung oil fields to various refineries. The portfolio also extends to other businesses of liquid transportation like white oil, furnace oil and edible oil etc.

Dry Cargo

NLC runs Pakistan's largest dry cargo operations from ports in the South to locations as far as Gilgit-Baltistan in the North. NLC has a diversified fleet of flat bed, half body and high wall trailers for dry bulk shipping safely and swiftly to industrial units and consumers. The freighting is being conducted 24/7 to meet the deadline of clients well in time. In fact, NLC has set record of transporting 1.5 million tons of wheat from ports to consumers, besides 400,000 tons of other cargo in FY 2020/21. NLC is considered to be the trendsetter in freight services in Pakistan.

Water Service

With an overall capacity of upto 324,000 gallons, this segment is actively engaged in provision of clean water to government and commercial organizations in Karachi.

NLC Express Freight Train (NEFT)

NEFT has enabled NLC to present itself as multimodal solutions provider thus enhancing its supply chain capacity. NLC owns 10 locomotives imported from KORAIL, South Korea. We also offer rail freight services to our clients in collaboration with Pakistan Railways, independently or as part of end-to-end logistics solutions.

NLC Marine & Air Services (MAS)

Adding the sea & air freight dimensions to NLC portfolio, MAS provides comprehensive end-to-end logistics solutions. Through its established links with international principals/agents, MAS offers its services to national business community that include international air & sea freight, trucking services, air & sea chartering, stevedoring, custom brokerage, multimodal cargo solutions & project cargo management. MAS has created a reasonable space in the realm of air and sea transportation in a short span of time.

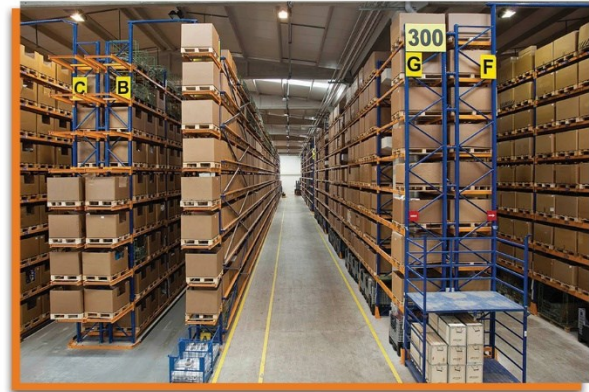

Dry Ports

The dry ports being managed by NLC facilitate traders and businessmen to have greater accessibility and penetration into hinterland markets. State-of-the-art infrastructure has been made available to ensure speedy handling of inbound and outbound cargo. Traders engaged in international freight shipping and regional export/import business prefer handling of their cargo at NLC dry ports for trans-shipment due to clearance services closer to business hubs. NLC offers dry port facilities at Sost (near Khunjerab), Thokar Niaz Baig Lahore, Multimodal Transit Hub at Jia Bagga, Lahore, Quetta, Hyderabad and Karachi.

Having huge logistics infrastructure facilities as well as prime lands across the country along national highways and CPEC routes, NLC is coming up with modern warehousing facilities. NLC is looking forward for JVs / contracts with renowned multinational / local logistics giants for developing logistics parks with warehousing, cold storages and fulfilment centers at these lands. NLC provides qualitative 3PL & 4PL services to business ventures and SMEs, besides storage capacity building of federal & provincial governments.

➔ Logistics Services During Natural Calamities & Emergencies.

NLC has always played a proactive role in providing logistics support in national relief operations during natural calamities like earthquake, floods, famine and TDP's crisis. NLC also provides logistics support to Pakistan Army during emergencies / military exercises.
