NLC Engineers

Dream Big, Build Bigger

About us

Raised in 1978, NLC Engineers have come a long way to symbolize commitment, dedication and professional excellence. Over past four decades, NLC Engineers achieved all-round success in execution of mega projects thus becoming major contributor in the national development. NLC Engineers have so far completed 232 projects while over 70 mega projects are presently in progress.

What makes NLC Engineers Different?

A pool of highly skilled engineers coupled with large number of NLC owned modern construction machinery supported by country-wide presence give NLC Engineers exclusive edge to undertake any kind of construction work anywhere in Pakistan. Scores of iconic projects completed in urban centers as well as far flung areas bears testimony to high-end professionalism of NLC Engineers.

The Swath & Project Management

Quality construction and timely delivery are the cardinals of NLC Engineers. NLC Engineers head office is located in Rawalpindi and has designated project directorates at Rawalpindi, Lahore, Karachi, Quetta and Peshawar to ensure effective monitoring and timely completion of mega projects.
